

## GREAT SINGLE TAX FIGHT

Hot Campaign Being Carried on in Little Delaware.

Uniformed Speakers, Carrying Literature, Making Speeches All Over the State—Notices Posted Up.

"Notice—Any one erecting a building on a vacant lot, or constructing a factory to make goods, shall be treated as an enemy and punished according to law, by an increase of taxes."

"The Single Tax will raise wages, lower rents, and encourage industry."

"Land in New York has sold for \$16,000,000 an acre. Under the single tax system that one acre would pay more taxes than 500,000 acres of ordinary farming land."

"Any system of taxation is unjust that taxes a man more for improving his property than holding it in idleness."

"A laborer turns a desert into a garden and then he increases his taxes. Verily, we are a great people."

The above is a copy of notices posted on fences about vacant lots and on the buildings in progress of construction in Wilmington, Del. They call attention to a satirical law being presented in that State, which is the main feature of the campaign, as well as its excellent character, the nature of Delaware's industries, the absence of constitutional objections, and the fact that some agitation had already taken place there, were all used as reasons for the adoption of the plan of action.

MARYLAND REPUBLICANS.

Gathering of the Class at Cambridge to Nominations State Ticket.

Cambridge, Md., Aug. 14.—The Republican State convention, which assembled here this morning, was the most spirited gathering of the party in years. The advance guard of leaders is already here and the rank and file of delegates will be on hand early tomorrow.

The capacity of this small town will be taxed to its utmost to accommodate the crowd, and the streets are being cleaned up by the city authorities. The convention assembled at noon, but it is expected that a sharp struggle between at least three contesting delegations will follow the nomination of Governor, attorney general and comptroller and the appointment on a platform until late in the day.

The crowds of Lloyd Lowmeyer claim that he will be nominated for the governorship on the first ballot with plenty of votes to spare. The opposition to Lowmeyer centers around William T. Mahoney, and the contest is becoming very bitter and acrimonious.

The Mahoney men are still hopeful of winning, although the general feeling tonight is that the Lowmeyer forces have the victory of the vote means a ruinous party split.

Aside from the gubernatorial contest, the main interest attaches to the platform. The leaders say there will be a strong and unqualified expression of the sound money idea in national finance. It is the purpose of the platform to be a statement of the alleged influence exerted by Senator Gorman in shaping the recent nomination of John F. Hunt for governor on the Democratic ticket.

The first act of the platform will be devoted mainly to State issues, the main one being a re-statement of all property suits throughout the State.

German Comment on Cuba.

Berlin, Aug. 14.—The semi-official North German Gazette, in an inspired leader, comments on the relations of the United States with the Cuban rebels. It says that whatever the official relations between Spain and the United States, the sympathies of the masses of the American people are with the Cubans, but if American politicians draw the conclusion that the victory of the rebels means a ruinous party split, they make a great mistake. The separation of Cuba from Spain can only result in Cuba becoming a small independent state like San Domingo, Haiti and Santo Domingo, all of which are now under the influence of the United States.

Took a Fit and Frowned.

Acting Coroner Glazebrook yesterday evening viewed the body of Frank Gray, Jr., seventeen years of age, who was drowned in the afternoon at the foot of Thirtieth street. He found that young Gray had been seized with an epileptic fit while in the water and drowned before assistance could be rendered. A certificate of accidental death was given. The youth was a victim of epilepsy and had been severely injured from St. Elizabeth's, where he was under treatment for the ailment. After the body had been recovered, by Robert Glazebrook it was returned to the residence of the dead boy's parents, No. 4229 P. street.

Rage of the Elements.

Chicago, Aug. 14.—A special from Beloit, Wis., says that a severe rain and hail storm struck that place at 5 o'clock last evening. Half of great size fell to the depth of four inches, breaking all glass in business places, and the city hall. Many small buildings were unroofed and overturned. Property standing on the streets was blown away. The loss to property cannot be estimated. Calverts were destroyed and trains cannot pass.

Two Lads Locked Up.

James Orr, eleven years of age, and Webb Felt, aged thirteen, were arrested last night by Sgt. Action, on the charge of suspicion. The boys had an antique and well-worn saddle, which would be hard to give away. They were trying to sell it, but had been unsuccessful, until they met the sergeant, who thought he had a case of larceny. Not being sure of this he charged the young men with suspicion. They claimed that the saddle was their property and complained that they had been locked up for trying to sell it. It is understood that there is a warrant for the boys at No. 6, on another charge.

The national executive committee of the Single Tax League has designated A. H. Stephenson, of Philadelphia, Harold B. Stoll, of New York, Del., and Jackson H. Baiton, of Hyattsville, Md., as the committee to assist the Delaware single taxers in the prosecution of the campaign.

The present agitation is the direct outgrowth of the Hyattsville contest of 1892-'93, at which time and place the single tax was given effective operation. It is declared unconstitutional by the Maryland court of appeals.

The single tax may be briefly defined as the substitute of a tax on land values (excluding improvements) in the place of all other taxes. Some of the reasons for the taking of such a step are indicated by the notice at the top of this column. The single taxers further believe that a tax on land values is ethically right, and a tax on the products of industry is intrinsically wrong and constitutes robbery by the government.

These points amplified and illustrated as well as many others are now being pressed upon the consideration of the people of Delaware.

Every night in Wilmington has been crowded and meetings are being conducted by the single taxers. A single tax poster, which next week will be carried by four speakers, are to be sent through the lower part of the State.

The Delaware newspapers are filled with articles denouncing upon the glories or denouncing the infamies of single tax.

The politicians, from laughing at the ridicule of the movement and the ridicule of the single taxers, are now being forced to pay to buy off the single taxers, are wondering what it all means, and from considering it an ephemeral fancy are feeling that they must soon deal with a substantial movement.

Every night in Wilmington from 100 to 500 persons listen to the single tax teachings, with the result that in each factory

FLED FROM THE KNIFE.

Edward Burrell's Heart Was Henry Bolden's Point of Attack.

Henry Bolden made a desperate attempt to plunge a long butcher's knife into Edward Burrell's heart, in front of the Baltimore and Potomac Railroad depot, about 8:30 o'clock last night. Both men are colored and Burrell is a well-known local character.

Several days ago they had a quarrel and Bolden threatened to "do" Burrell. They met last night for the first time since they quarrelled. Bolden at once pulled the long-bladed knife from under his coat and made a vicious lunge at Burrell's breast. The latter drew up his face blacked book.

The knife stuck in it, and probably saved the man's life. Before Bolden could make another thrust at Burrell, the latter ran up Pennsylvania avenue toward Seventh street, crying murder and closely pursued by Bolden and several of his friends.

At the Seventh street transfer station, Police Officer Charles W. Hutchinson ran up to Bolden, and after disarming the desperate fellow, placed him under arrest. The knife is about twelve inches in length and sharpened to a fine point, the blade being about as broad as that of an ordinary dagger. At the transfer station, Bolden was charged with assault and battery and carrying concealed weapons. He was committed to the police house.
